The Ultra Plus is the new dimension of the Azoogi Strip Family. Featuring 29W/m of pure power, with a unique average lumen efficacy of 140lm/W without any compromise. Along with its incredible brightness in any aluminum profile, the Ultra Plus strip also conserves the dotless effect which makes it a high end architectural product. Where in the past two strips were essential for creating this effect, now, all you need is just one Ultra Plus line.

NEW STRIP

With over 3000 Lumen per metre with high efficiency of more than 140 lumen per Watt
